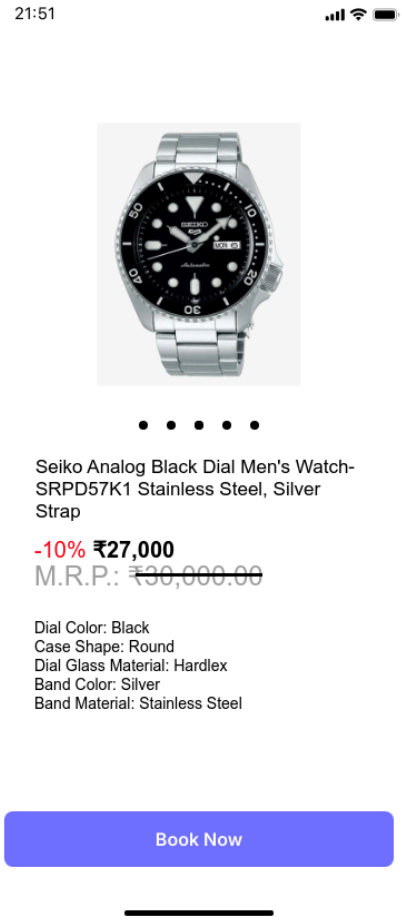
Experiment-7 (Updated - Comfi UI)

Name: Mukesh V Rollno:240701339

Experiment with UI design screens and gather user feedback based on updated Comfi application screenshots.

⚪

· This screen uses a white background, providing a clean and simple interface
· It is best for users in **bright environments or daytime usage**
· Improves readability and clarity of text and UI elements
· Gives a professional and minimal design feel
· Suitable for **students, office users, and general everyday use**
· Makes content more visible and easy to understand



⚫ Black Theme (Dark Mode UI)

· This screen uses a black background, giving a modern and premium look
· It is ideal for users who prefer **low-light environments**, especially during night usage
· Reduces eye strain compared to bright screens
· Helps improve focus by minimizing visual distractions
· Suitable for **tech-savvy users, gamers, and night-time users**
· Also saves battery on OLED screens

⚙️ Grey Theme (Neutral Mode UI)

· This screen uses a grey background, offering a balanced visual experience
· It reduces harsh contrast compared to pure black or white
· Provides a **comfortable viewing experience for long usage**
· Helps maintain focus without causing eye fatigue
· Suitable for **users who prefer a neutral and less intense interface**
· Often used in modern apps for a subtle and elegant design

User Feedback Collection

- A Google Form was created to collect user feedback on the chat app design.
- The form was shared with users to evaluate different color themes and layouts.
- Users were asked to give their rating on visual appeal, readability, and overall experience.
